DR. DUFFY'S TONIC MIXTURE,

For the Care of Ague and Fever. THERE is no disease to which the human body is liable so universal, so dreaded, or so generally fatal, as Fever; it appears in different countries and climates, under different types and characters In this country, where its annual return is looked for with anxiety and apprehension, it usually as-

sumes the bilious type.

Another species of fever prevalent here, and which it may be said never leaves or subsides altogether, is the Autumnal Intermittent, or 'Agu and Fever,' which, if not so fatal, yet is very dis-tressing. Its characters, effects and consequences are peculiar; to a diminished energy of the nerv-ous system are to be ascribed the langor, lassitude and general prostration which characterises its in-vasion; to which might be added the derangement of the mixed functions of the liver, stomach and intestinal canal. It is therefore quite manifest-in fact, it is well known, that Ague and Fever lay the basis of consumption of the lungs, chronic affection of the liver and spleen, dyspepsia, and not unfrequently dropsy; and when once this state of the viscera becomes established, there is a constant tendency to relapse, even from slight causes. and when thus complicated with those constitutional

diseases their treatment and cure becomes more Standard Works of Medicine.

Standard Works of Medicine.

Common sense teaches, that the cure of Agac and Fover consists in shortening the duration of the partoxym, and preventing its return. The first is to be any physician who can prove that the Medicine roxysm, and preventing its return. The first is to be a commissed by dept ting the bowles, relaxing be accomplished by depleting the bowles, relaxing the skin, &c.; the second, by the prompt application of such medicines as are calcuted to restore the deranged functions and gives a healthy tone to tary testimony in passession of the Proprietor, vouching its virtues and curative powers, is im-

the nervous system.

The Tonic Mexture new offered possesses all the qualities requisite to effect the second indication. The first dose generally checks the disease, and one bottle never fails to effect a cure; a healthy reaction takes place, the appetite is restored, the reaction takes place, the appetite is restored, the system becomes invigorated, and the patent begins to feel surprised at the rapid transition from a state of morbid suffering to that of progressive recovery.

Headache Sick Headache, Foul Stomach.
PITTSBURG, PA., May 1, 1856.
Dr. J. C. Ary. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing.

SR: I have used your Pills in my general and hospital
practice ever since you made them, and cannot hesitals to
say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that
organ. Indeed, I have seldom found a case of bilious dissaze so obstituate that it did not readily yield to them.

Post Office, Hartland, Liv. Co., Mich., Nov. 16, 1855.

Da. Atan: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirbly even then. Such a medicine as yours, which is actually good and honest, will be prized here.
